What is Women in Faith Build?

Habitat for Humanity Greater Toronto Area calls on women of faith in the GTA to help combat unsafe and unaffordable housing in their community. In 2008, the original Women of Faith Build organized by Judy Csillag believed that building bridges between communities and societies celebrates diversity, difference, and inclusion. Nine years later, Habitat GTA invites Women of Faith to continue to celebrate diversity, differences and inclusion to help build 50 homes and help to make the dream of affordable homeownership come true!
